Reduced Price: \$213,900 / List Price: \$235,000

3 +/- acres in Covered Bridge Subdivision with a 4600+/- sq ft home. This beautiful home has so much to offer with the large rooms, hardwood floors, arched doorways and ceramic tile. A unique feature of this property is the large windows that overlook the wooded backyard that we had the pleasure of watching deer walk through. While there are a few updates that need to be done, it is a very roomy home in an awesome location that offers plenty of shade and privacy.
